ALDERSON, ALTA.

A correspondent writes to the "Review" and tells us, "that they are delighted to get the 'Bow Island Review' as some of their family are still here and they themselves were early pioneers of Bow Island. 15 to 16 years ago, they add, "that things have indeed changed since we knew them."

They say that this long winter has been very hard on stock out round Alderson and that they have lost some of their sheep—which the Review is indeed very sorry to hear, as it is also a big money loss to these Farmers. Well, here is a bit of hope for us all, the Review hears from many of the Farmers, their belief is that this year of 1922 is going to see a Good Crop and the "Review" believes and hopes that too, because the "Review" is interested in so many of our Farmers' Homes and Lives, Mingling in their "Hopes, Joys, Sorrows, Sickness and Death."

We hope to very often get a report of the doings of Alderson's Farmers and how their Stock and Crops are doing

Programme in full all ready

Bow Island News

Mr. and Mrs. Still and Clifford are moving out to the farm soon

Mr. A. Sampson met with a serious accident last Friday when his load of coal tipped and one of his horses fell on his foot and injured it

Mr. Frank Grund, Jr. went to Washington last week

Last Thursday evening a lecture entitled "Acre of Diamonds" was given in the I.O.O.F. Hall by Mr. Hillie for the benefit of the Tuxis Boys. The program opened with a musical selection by the orchestra. Mr. Hurst and Mr. C. Bateman taking part. The Tuxis Boys then put on a couple of numbers. Mr. Hillie then gave his talk. The evening programme closed with a selection from the orchestra

Mr. West Potter was a business visitor to Burdett last Saturday

Miss F. Holloway and Miss Danielson returned to Medicine Hat last Monday

Mr. Hugh Ross is now working at the Home Ranch

The Review is very pleased to state that Mary Calder is showing improving but not able to be out of bed yet

BOW ISLAND

Mr. Dick Binn spent the week end out on the ranch with Mr. T. Whitney

Mr. and Mrs. W.R. Depew returned on Tuesday from Seattle, after having been away most of the winter

Mr. Geo. York returned on Tuesday morning from Spokane and intends to farm here

The Conquererville Needle Craft will meet at Mrs. R. M. Conquererville on March 15th. All ladies bring patterns of childrens clothing

Mrs. J. M. Gibbons - secretary

A party of seven boys and girls surprised Master Roy Martin last Friday evening the occasion being his 13th birthday. Games were indulged in, followed by lunch, when nuts, oranges, candy, etc. were also enjoyed. Everybody had a fine time and wished that Roy had a birthday every day

Rev. E. A. Davis of Medicine Hat, was the guest of Mr. and Mrs. Ridgdale to dinner on Monday last

Mrs. Bell held a party last Friday evening for her son and the two Ross boys, a number of guests were invited and all spent an enjoyable evening in playing cards, games, and dancing, etc. since lunch was served before they departed

Mrs. Ed. Renne had as her weekend guest her father, who is a traveller

Bow Island News

The Boys of the "Okeh" Tuxis Square and the C. G. I. T. group went for a bike to James' place last Monday evening, both groups had their business meetings and after all matters of importance were discussed, they had a joint devotional meeting conducted by Rev. Harkin, after this they had their debate "Resolved that city life is preferable to country life"

Leader of the affirmative was Verne Gage, other two speakers were C. Schornet and Reg. Settlers. Leader of the negative was M. Calder other two speakers were E. Hagen and F. Ross, Miss M. Allen occupied the chair, Mrs. Harkin and Mr. and Mrs. James were the judges. Verne was the first speaker and he said that in the country the people are so far from school that the pupils cannot attend regularly whereas in the city they can. They can also get better qualified teachers in the city than in the country, in the city you get to know all the people whereas in the country, they live so far apart that you may not know the people for ages

M. Calder said that in the country there is abundance of fresh air, and also plenty of room for good healthy exercises. The children of the country are just as well educated as those of the city in the country we have every chance of taking up nature study

Lead in the city if so high priced that it forces the people to live in as small homes as possible, whereas in the country the farmer can have larger and better and more beautiful homes. The cost of living in the city is very high, as eggs, butter, etc. have to be brought in and in the country these are all produced at home

C. Schornet said that in case of sickness the doctors are at hand in the city. In the country you have to drive for them. We have the very best of hospitals in the city and also trained nurses. In the sports line we have gymnasiums, swimming ponds, skating rinks and many other things. E. Hagen said as far as education is concerned most of our great leaders got their early education in the country school

We have better schools in the country as they are very ventilated. We also have pure, fresh water in the country and its not from the river like it is in the city

Reg. Settlers said as far as clothing is concerned the expenses are a great deal higher in the country, as you wear them out faster than in the city. We also have gas and electricity in the city and in the country you have to burn coal and use coal oil for lights. We have street cars to ride in when we want to go any place. In the country you have to walk and it costs more for shoe leather than to ride in the street cars

Frances Ross that there is more free action in the country than in the city nothing to take up a boy's time after school in the city and in the country there are always horses to do. We also have healthier exercises in the country than in the city

The two leaders then spoke again. After they spoke the Judges summed up the points and the girls won by four points

Mrs. J. Green is now able to be up, after being confined to her bed for the past week with the Grip

Mrs. Ed. Renne had as her weekend guest her father, who is a traveller

BOW ISLAND Death of Mr. W. J. Pippard

We regret to announce the death last Friday night of Mr. William J. Pippard, he died of Hemorrhage of the lungs. He had been feeling better lately, so had taken up his old profession of Teaching

He had been teaching School all day and walked home, but that night Mrs. Pippard thought she heard him call and when she went in to him, she found blood pouring out of his mouth, he tried to speak once more but was unable and in a few seconds he breathed his last

Mr. Pippard will be greatly missed around Haig and Maleb—he taught the Sunday School at Haig and had endeared himself to the children all around and had many friends

The funeral took place last Monday, the Rev E. A. Davis of St. Barnabas Church, Medicine Hat, came specially to conduct the funeral Service which was held in All Saints' Anglican Church and later, interment was made in Bow Island Cemetery

The "Review" joins in extending to Mrs. Pippard and her little daughter Mary and also to his father and mother, brother and other members of the family, their sincerest sympathy

Mr. W. J. Pippard was born in London in 1884. He trained as a Pupil Teacher for four years, he then went through College, after which he resumed his duties as a Teacher. Through delicate health he was advised to have a change of climate, so he joined his parents out here on the farm, where he felt he had gained his health and so was anxious to start again the work he had loved so much. It however proved too much for him

CARD OF THANKS

Mr. Pippard and family desire to extend their deep thanks to all friends who so kindly helped in this time of their great bereavement and also for the offerings of lovely flowers

Signed
Mrs. Pippard and Family

We are very glad to say that Mrs. A. E. Anderson is steadily improving in health under the careful attention of Doctor Cairns, and Mrs. Hurbit's good nursing

The death occurred on Wednesday morning of Mrs. Lancaster of Prosper, near Etzikom after a long chronic illness. Dr. Cairns has been attending during her long illness

BORN.—To Mr. and Mrs. Shepherd of Winnifred last Tuesday, a son
Dr. Cairns attended

BORN.—To Mr. and Mrs. Chancery Almy at the home of Mrs. Hurbit at Bow Island on Wednesday the 8th, a son. Dr. Cairns attended

BORN.—To Mr. and Mrs. Charlie Vickmore on Feb. the 4th, a son (see Miss Tilly Noy)

Mr. and Mrs. Homer King and little son, also Mr. and Mrs. B. King, have gone to Seattle, Washington

Mr. and Mrs. Roush were week-end visitors at Medicine Hat

This fine spring weather has put a stop to the curling and skating for this winter, altho' we don't like to lose this good sport, the warm days are surely looked forward to

CANADIAN PEACE-TIME HEROES

The Child Immigrant

The Phoenicians had no rule to cover it; there was nothing in the Amalfi code forcing men to rescue their brethren drowning at sea, but there is that in the heart of every British seaman, born of tradition, which does not permit him to pass by without aiding fellow seafarers in dis-

When the call went out from the French liner *Hain Tien* asking for assistance last April on the coast of China the crew of the Canadian Pacific liner *Monteagle* was alerted, the S.O.S. and hurried to the assistance of the fast sinking vessel.

It was in recognition of this act of bravery on the part of both the white and Chinese members of the crew of the "Monteagle" that the presentation of the Liverpool Shipwrecked Seamen's Society medals and certificates were made recently on board the boat as she lay at the quay.

The Mayor, Mr. J. G. Nichol, and the Lieut.-Gov. W. C. Nichol made the presentation in full directed and impressive language. Particularly did the Mayor commend the gallantry of the Chinese crew in their devotion to the boys receiving the medals.

admonishing them to even greater things in the future.

Official Proud of Men.

Proud of the efforts of their men in the Canadian Pacific Steamship Company planned the presentation, having all company officials present, and any prominent business men of the city.

In the absence of J. Vaux, assistant purser, Mrs. Vaux received her husband's medal and certificate.

The C. P. R. recognized the bravery of the Chinese by monetary prizes several months ago when

[illegible]

The distressed steamer was the French vessel "Hsin Tien," of Saigon. At 9.30 a.m. the "Montcalm" was in a position to lower two lifeboats and two of these were despatched, one in charge of Chief Officer Ferguson and the other by a crew member under First Officer Campbell. They had Chinese crews. About the same time the officers of the French vessel launched two boats, but one was capsized, and it is believed four of the Chinese seamen were drowned at the time. The other boat, with 16 Chinese, got safely away. The

chief officer's boat, reached the "Hain Tien," and called to him to come aboard, but owing to the high seas running the Chinese on board refused, but the boat was towed to the "Hain Tien" and was taken on board the lifeboat vessel. The Chinese crew of the officer's boat put the sinking vessel to rights, and the Chinese efforts of the Chinese seamen. The "Montague" shifted to leeward, to the south of the "Hain Tien," but took on the sea, and the Chinese captain, A. H. A. M. picked up Mr. Campbell and his wife, and the Chinese captain was willing to venture again into the small boats, but Captain Hooker was not willing to do so, and sufficient stamina to stand the long haul, and the Chinese captain was so called for a voluntary white whale, and the Chinese captain got away, and an hour later was back with 18 persons. Great difficulty was experienced in getting the men off the wreck owing to the rough weather, and the Chinese with its European crew again left the wreck, and the Chinese captain was getting very low in the water, and the Chinese captain was listening to the wind and sea the lifeboat, which was washing down to the Chinese captain, and the Chinese captain was driven to leeward, and the Chinese captain was picked up the boat and towed it to the Chinese captain, and the Chinese captain was off the Laurock Islands, and the Chinese captain was off the Laurock Islands, and the Chinese captain was off the Laurock Islands.

ere she could probably make the
le of the "Hsin Tien." At 3 p.m.
e last person was taken off the
rench ship, and 15 minutes later
d were safe on the "Montague."
he total rescued was six Euro-
ans and 60 Chinese. At 4:20 p.m.
e "Hsin Tien" was sunk.

[illegible]

A group of pretty children aboard a C.P.R. Liner on the way to Canada.

The flow of child immigrants into Canada has started again, after its complete cessation during the war. The recent arrival at Quebec, on a C. P. R. steamer, of several hundred boys from the Barnardo Homes of London, draws attention anew to this important and desirable stream as much care as their transfer across the Atlantic. It is a remarkable fact in this connection that for every boy and girl thus brought to Canada there have been a dozen applicants. This demand enables those who are responsible for the children's welfare to be able to allocate them with great

Few realize that a total of 75,000 child immigrants have entered the Dominion since the first shipload came years ago. It steadily grew to 10,000 a year, and the number

reaching high water mark in one year with 3,266.

Who are these child immigrants? They come from eleven British institutions of a philanthropic character such as the Barnardo, the

Quarrier, the McPherson and the National Children's Homes, in which, as orphans or semi-orphans, they are rescued, cared for and trained for their adult life. Only the best—physically, mentally and morally —

are sent to Canada and then only after as thorough preparation as can be made by the Canadian authorities. The fact that seventy-five per cent of those who come to Canada follow agricultural pursuits and that over half are men indicates that they are good citizens in their new home, make a highly desirable addition to the population. They are not only self-sufficient but have been able to buy Country Homes, but the selected parties for overseas are accompanied by others of work. Some have found their way to legislative halls and some have become successful farmers. Stock growers and ranchmen everywhere have his quota, and as to the high qualities of these youthful immigrants who are received into the life of the Dominion, it is hard to find fault. They are kindly care and oversight, are guided into a useful citizenship

In addition to the class of immigrant children above described many children of excellent British families come to Canada. Some come with their parents while others come alone or accompanied by their country in their early youth.—F. Y.

Mc Gill a Hundred Years Old

AN ALPINE GUIDE OF THE CANADIAN ROCKIES

"All mountain climbing is dangerous, then young men would be led to far more dangerous, since more people die in the woods than on the mountains." That is the answer of Rudolf Ammer, the famous Swiss guide of Edelweiss, British Columbia, in Montreal, recently, when asked if mountain climbing is a dangerous sport.

Rudolf Ammer is well known to mountain climbers and tourists to Lake Louise, Banff, Field, and all the most favored of the holiday resorts in the Canadian Rockies.

He has led many a party of oldtimers over the

[illegible]

Montreal will witness an historic day for the city when on Wednesday, October the twelfth, the annual convocation of the founding of McGill University will be celebrated, a reunion of former students and faculty. For a year and a half arrangements have been made by the committee of the McGill Graduates Society in charge of the details of the celebration.

From all over the world McGill graduates will be invited to take part in this memorable gathering. At the present time the committee has received replies from Japan, China, and India, from the United States, South America, to be followed by those from Great Britain.

The convocation is to present to celebrate the one hundredth anniversary of their founding of the university the titles of student days.

Those who have been asked to very recognized university the world to send a representative, and the graduates of the various degrees at a special convocation.

The convocation will take place in Braxton Hall on the campus, followed by a reception in the morning. The morning of the week will be devoted to special exercises, and the afternoon of the various faculties of Medicine, Science, Arts, and Commerce. A general meeting of all McGill graduates will be held on the second day, and in the afternoon there will be a concert for the evening at which all classes will meet as units, and the evening will be devoted to a general assembly, the ladies of the McGill Graduates Society and the Victoria College University.

Sports will be held at the Percival Davis Stadium on the afternoon of the third day, and a dance will be given by the students and the Board of Governors. The convocation will conclude with an excursion to the Mount Royal Hotel.

As of Bellevue has been arranged followed by luncheon at the Hotel Bellevue, and a reception between McGill and Toronto graduates. The convocation will last sixteen, a general church service

[illegible]

RUFOLO AEMMER

You need strong waterproof boots, heavy loaded shoes. The climber's hands must be strong. Beginners starting out on the climb are told to take a good rest.

"The climbers ever get nervous on the mountain," said Rudolf.

"No," he answered, "but they're very soon get over that. In an exceptional case of dizziness we bring them down."

Proceeding, Rudolf said that the climber must be a good swimmer. The climbers have to go to a rope, kneeling on the snow, and the climber guide used his axe to stand around the rope. The climber would lead the guide across the snow bridge. It is easier to go down than to go up.

Rudolf has climbed with many men. Records of climbs are kept in a book. Mrs. Stone was the wife who came after her night day expedition. The Swiss guides are called Edelweiss built for their nature by the Canadian Pacific Railway.

"You may see them from the train," he said. "They are in the continent of Golden, B.C. There they bring you to the mountain. The guides are taught to climb from their own country. They are not from the hardy race of mountaineers."

Canadian Wheat Wanted in India

Bombay Concern Makes Inquiry Through Vancouver for Prices

The development of a market for Canadian hard wheat in India is forecast in advice from shipping concerns in Vancouver, received by grain sales agencies in Regina.

It is reported by the Merchants' Exchange, Vancouver, that 3,000 tons of Canadian wheat are required by a Bombay concern and in this connection, price quotations are asked.

It is believed by authorities here that this demand may immediately provide the opening of a permanent market. British and Canadian flour made from the usual blends of hard and soft wheat, has been in increasing demand on the Indian market, and striving to trade figures. It has met with such a favorable reception that soft wheat millers in India are reported to be making preparations to secure Canadian hard wheat in order to blend a flour which can successfully be marketed in competition with imported flours from the Dominion, Great Britain and the United States.

Cuticura Promotes Good Hair

Treatment: At night rub Cuticura Ointment into scalp all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Repeat in two weeks.

Price 25¢. Cuticura Soap and Ointment, Sold Everywhere. Cuticura Soap and Ointment, Sold Everywhere.

WORLD HAPPENINGS BRIEFLY TOLD

Eight political prisons in Great Britain are being closed for reasons of economy.

Twenty-five persons at a wedding party were drowned when the ice on the Thesie River, which they were crossing, broke through.

Crane foundries in England are working overtime turning out "Pai and Take" gambling toys to meet the demand. Two million new toys a week are produced, many for export. Mohamed K. Gandhi, leader of the non-co-operationists, has temporarily abandoned his previously announced policy of carrying out a programme of civil disobedience.

Interest in the teachings of Buddha is developing through the medium of spiritualism. A Budapest giant has been found through whose lip Buddha is said to deliver his sayings to the awestruck audience.

A party of Canadian manufacturers and their wives have left Toronto for the West Indies to enquire into the prospects for the improvement of trade between Canada and the islands.

Importation of livestock from the United Kingdom has been prohibited by the Department of Agriculture of the Union of South Africa, owing to the prevalence of the foot and mouth disease there.

Military, naval and state honors were rendered by the Uruguayan government to Sir Ernest Shackleton whose body was in the British steamer Woodville, which conveyed it from Cadiz with salt when a storm overtook her.

It is announced unofficially that the British Empire Exhibition visitors for 1923 will likely be postponed until 1924. A British mission is now in South Africa working up interest in the exhibition and is due to arrive in Canada for the same purpose on August 12 next.

He beat the train to the crossing a good many times

"It's never touched me yet," he explained when they pointed out the risks.

That's the answer a good many people make when they hear that the drug element in tea and coffee often harms nerves and health. They say it's never touched them yet.

Sometimes they only think it hasn't.

Wakeful nights, drowsy days, headaches that keep coming more frequently—often are blamed on bad luck when the blame belongs on bad

judgment in taking needless chances with harm.

Over on the safe side is Postum, a pure cereal beverage, delicious and satisfying—containing nothing that can harm nerves or digestion. Thousands who used to try their luck with tea or coffee are enthusiastic over having found safety and satisfaction in Postum.

It's worth your while to make the test with Postum for ten days. Postum is a delightful drink for any member of the family, at any meal.

Your grocer has both forms of Postum: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of large size, for those who prefer to make the drink while the meal is being prepared) made by boiling for 10 minutes.

Postum for Health

"There's a Reason"

Made by Canadian Postum Cereal Co., Limited, Windsor, Ont.

"YOUR TEETH"

VARIETIES OF PLATES

By DR. BEN FRONSTON, D.D.S., M.D., Editor of "Dental Hygiene."

If you have but very many teeth, you must consider some method of replacing them, because if you don't you will partially chew your food and your digestive apparatus will suffer severely from overwork and your general system must necessarily be undermined.

So common sense dictates that when you lose a tooth, it must be replaced. There are other good reasons why teeth should be replaced but just now, the safety of plates is under discussion.

In a jaw where there are some natural teeth remaining the plate that carries the missing teeth is called a "partial plate."

There are many methods of keeping these partial plates in position, and the methods are so extremely clever that the feelings, appearance and sensation of the normal teeth are almost retained.

The old idea of placing bands behind to fasten every piece of teeth that was missing, is rapidly giving way to the extensive use of the partial plate.

One of the great advantages of partial plates is the fact that it can be removed and completely cleaned.

Now, cleanliness is one of the greatest possible measures in the conservation of health and anything that can be cleaned can be made healthy; so if you have in your mouth an extensive set of uncleanable appliances, they are almost certain to maintain a hygienic condition.

Always consider the possibility of cleanliness when any new work is being done in the mouth. The partial plates depend for their retention upon the teeth that are remaining in the jaw.

To be satisfactory, the teeth upon which the partial plate depends for support must be very healthy.

You cannot hope to have either a satisfactory or a healthy piece of partial plate work in your mouth unless the teeth to which it is anchored are healthy and will remain so.

If you have a healthy partial plate, do not try to save a bit or hopeless teeth to interfere with it.

Mothers, Quick! Give California Fig Syrup For Child's Bowels.

Even a child which loves the "briny" taste of "California Fig Syrup," will not refuse to use the berries. In a few hours you can see for yourself how thoroughly it works all the impurities out of your child's system, and gives you a well, playful child again.

Many mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child or a mother's sleep. And you know that "California Fig Syrup" which has been used by mothers and children for over 30 years, is a safe, reliable, and gives you a well, playful child again.

British Columbia Land for Sale

Reserved Crown Lands to be Sold for Agriculture at Reasonable Price.

It is announced that the terms upon which reserved crown lands will be sold for agricultural purposes in British Columbia are a price of \$5.00 per acre for first-class arable land and \$2.50 per acre for second-class grazing land, the minimum area to be sold under such an agreement to one purchaser being forty acres and the maximum 640 acres.

In addition to the above price there is a charge of ten per cent of fifty cents per acre for survey and the cost of surveyed lands and in the case of unsurveyed lands purchasers are required to have survey made at their own expense within six months of their application being accepted.

Many children die from the assault of worms, and the first care of the parents should be to see that their infants are free from these pests. A vermicide that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a healthful and tonic and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

First application of the prism system as a punishment for crime came in the establishment of workhouses in London in 1559.

Cuba Size of Pennsylvania

The area of Cuba is about equal to that of the State of Pennsylvania.

At one point in London buses pass at an average of 640 per hour at the busiest time.

Burdett News

From our own Correspondent

Mrs. Abbott and three of the children are down with a bad cold similar to the "Flu".

On Wednesday March 1st, Mr. J.M. Hillis gave a lecture in the United Church under the auspices of the Young Peoples Society. The proceedings were started by the choir and the Rev. Johnson offering a short prayer, after which Mr. Hillis was introduced and gave a lecture on diamonds, in the end showing what a wonderful lesson we could learn from them.

After a couple of songs rendered by Mrs. G.A. Pool, which were well received, Mr. Hillis gave a number of recitations to the young people and the old people enjoyed it as well. Another number by the choir brought a pleasant evening to a close.

Mr. Eddie Fortin of Grassy Lake spent the week end at Mr. Ray Lyons south of Burdett.

On Monday Feb. 27th, a number of young folks, chaperoned by Mr. Mansfield, gave Mrs. Rupert Campbell a surprise party and spent a very pleasant evening.

On Friday Mar. 3rd, Mrs. Campbell returned the compliment by entertaining about 35 of Rupert's school mates in honor of his 17th birthday. The evening was spent with music, cards and dancing. A bounteous repast was served about 12 o'clock which was thoroughly enjoyed by the young folks. Mrs. Paton, a sister of Mrs. Campbell's, assisted to serve.

HORN—To Mr. and Mrs. B. Arving (nee Nellie Burns) a son, on Feb. 28th. Mother and child are doing well.

Mr. and Mrs. Adolph Faust of Bow Island, have been spending the week with their aunt Mrs. J.E. Campbell.

There is quite a lot of sickness in the village. Dr. McPhail is kept busy these days.

The beautiful sunny weather is very welcome to the farmers, after being shut in by the long cold winter, the first few days of warmth the village was full of people from the country and every one seemed so happy.

Mr. A.T. Litt, principal of the Consolidated School, spent the week end at Grassy Lake.

Mrs. Frank Bakken of Grassy Lake spent the day in town on Monday.

The young daughter of Geo. Lomas, Olive, is ill with pneumonia. The Review sincerely hopes she may soon get better.

These Farmers Don't Think that the Land is Worth even \$3 an Acre

At the annual meeting of the Blue Grass U. F. A. local the "farming officers were elected for the year: President, C. O. Collins; Vice President, A. Anderson; Sec. Treas. J. R. Johnson; Directors, J. Christenson, T. Monahan, J. Skytte, Geo. Ford and C. Augusten. Resolution committee, J. R. Johnson, C. O. Collins, A. Anderson, T. Monahan and Skytte. Post Office and Railroad committee, Geo. Ford, John Laid, Chas. Augusten, C. Christenson and W. S. Benjamin. Press Agent, J. R. Johnson, the Board of Directors was also asked to act as finance committee. The following resolution was submitted and passed: Whereas, when the Dominion Government opened up the area of Southern Alberta for homesteading they also allowed people to take up a pre-emption in addition to the homestead by attaching a sum of \$3 per acre to be paid for the pre-emption, and whereas, after 12 years of farming, the people in the pre-emption district, after spending the best part of their lives and also everything they possess financially, have found that the pre-emption has proven to be a failure, and whereas the governments are doing everything in their power to solve the problem of this districts, and whereas everyone has a heavy debt overhanging which under present conditions can never be liquidated, and as under these conditions the people have not got the energy to persevere; Therefore be it resolved that we petition the Dominion government to allow the people in the pre-emption district to retain their pre-emption and receive a patent for same free of charge by cancelling the price of \$3 per acre for the pre-emption.

Prophetic Egg

PROPHETIC EGG—A Toronto despatch of Jan. 26 says: A special despatch to the Toronto Star from Kingston says "the village of Sydenham has a big sensation and all over an egg laid by a hen owned by H.W. Guess. The egg was somewhat remarkable as to its exterior aspect for on the shell in grim prediction were the words "The World Ends in 1923." This ominous prophecy was written in dark yellow on both sides of the egg and resisted all efforts to be removed by the use of a knife, it was claimed that the writing extended right through to the inside of the shell. Probably the year 1923 will be looked forward to with a great deal of dread expectation but comfort may at last be taken in knowledge that a prophet has sometimes failed to tell the truth."

All Kinds of Disasters

Prophesied

The year 1923 is destined to shake the world to its foundation, both physically and politically. It is to be a succession of plagues, famines, floods, shipwrecks, rioting and revolution. So says the British Journal of Astrology, which has drawn the horoscope for that year, when the planets Mars and Mercury will be in conjunction. Six years later the great Armageddon is to take place. It will be a final conflict between Mohammedanism, allied with Bolshevism, against the united Anglo-Saxon world. It will end in a "universal peace" in 1932, but "these will be few of us left and we shall all be so tired that peace should happen anyway," the horoscope says.

Supreme Court Opened last Monday Justice Simons Presiding

The Civil Sittings of the Supreme Court for hearing non-jury cases, opened last Monday, with Mr. Justice Simons presiding. Among other cases for hearing, is the case of Tates Vs. Murphy—Mr. F.O. McKenna is the Barrister for the Plaintiff and Mr. R. Barnes for the Defense.
